Perennial good for most soil types and light conditions, especially well suited for dry, shady areas, flowers June to early July
Broadcast seeding rate as component of mix: 2 oz/ acre
Price/oz: \$60.00
Price/lb: N/A

Cerastium arvense – field chickweed

Perennial ground cover well suited for most soil types and full sun to partial shade, flowers May to June
Broadcast seeding rate as component of mix: 9 oz/ acre
Price/oz: \$30.00
Price/lb: N/A

Clarkia pulchella – deerhorn clarkia

Winter annual, good for dry open sites, quick establishment, all soil types, flowers mid-June

Broadcast seeding rate as component of seed mix: 8oz/ acre

Price/oz: \$17.15

Price/lb: \$219.00

Cleome serrulata – Rocky Mountain beeplant

Late season annual good for dry to moist sites with full sun, grows to be up to 4 feet tall, flowers July through October

Broadcast seeding rate as component of seed mix: 4lbs/ acre

Price/oz: \$14.00

Price/lb: \$180.00

Erigeron compositus – cut-leaf daisy

Perennial, good for dry open and moderately shaded sites, all soil types, quick establishment, early spring flower

Broadcast seeding rate as component of seed mix: 9 oz/ acre

Price/oz: \$35.00

Price/lb: \$350.00

Eriogonum ovalifolium – cushion buckwheat

Perennial cushion plant well suited for dry, well-drained, sunny sites, flowers early to mid June

Broadcast seeding rate as component of seed mix: 1lb/ acre

Price/oz: \$34.00

Price/lb: N/A

Gaillardia aristata – blanketflower

Perennial, good for sunny, dry, disturbed sites, all soil types, flowers early to mid July

Broadcast seeding rate as component of seed mix: 4lbs/ acre

Price/oz: \$13.00

Price/lb: \$166.00

Heterotheca villosa – hairy goldenaster

Perennial, good for dry open sites, all soil types, quick establishment, late summer flower
Broadcast seeding rate as component of seed mix: 1.4 lbs/ acre
Price/oz: \$15.45
Price/lb: \$165.00

Ipomopsis aggregata – scarlet gilia

Biennial, good for dry, well-drained sites with full sun exposure, flower mid summer through late summer, good hummingbird attractant
Broadcast seeding rate as component of seed mix: 1lb/ acre
Price/oz: \$38.00
Price/lb: N/A

Monarda fistulosa – beebalm or bergamot

Perennial, good for moist to dry sites, full sun to shade, all soil types, flowers mid July to early August
Broadcast seeding rate as component of seed mix: 8 oz/ acre
Price/oz: \$35.00
Price/lb: N/A

Oenothera villosa – hairy eveningprimrose

Biennial, good for dry open sites to moist shaded sites, easy establishment, flowers starting in late june and continues until first frost
Broadcast seeding rate as component of seed mix: 11 oz/ acre
Price/oz: \$20.00
Price/lb: \$224.00

Penstemon eriantherus – fuzzy-tongue penstemon

Perennial, good for dry, open, well-drained sites, easy establishment, late spring flower
Broadcast seeding rate as component of seed mix: 1 lb/ acre
Price/oz: \$32.00
Price/lb: \$325.00

Penstemon nitidus – waxy-leaf penstemon

Perennial, good for dry open sites with well drained soils, moderate establishment, late spring flower

Broadcast seeding rate as component of seed mix: 12 oz/ acre

Price/oz: \$32.00

Price/lb: \$325.00

Penstemon procerus – small-flowered penstemon

Perennial, rhizomatous forb good for dry to moist sites in full sun or partial shade, quick establishment, early summer flower

Broadcast seeding rate as component of seed mix: 4 oz/ acre

Price/oz: \$26.00

Price/lb: \$330.00

Penstemon wilcoxii – Wilcox penstemon

Perennial, easy establishing forb for dry, well drained sites in full sun to partial shade, flowers mid to late June, excellent honeybee attractant

Broadcast seeding rate as component of seed mix: 6 oz/ acre

Price/oz: \$28.00

Price/lb: \$358.00
